### **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

a. In claim 9, line 3 "a mounting portion" was changed to, --a mounting structure--, in order to obviate issues of 112 2<sup>nd</sup> paragraph (i.e., "a mounting portion" of what).

2. The following is an examiner's statement of reasons for allowance: Regarding claim 15, the prior art does not teach or suggest, in combination with the other elements and structural relationships recited, the stop valve having a function of blocking between the hydraulic circuit of the suspension system and a hydraulic circuit of the vehicle height adjustment system (it is noted that the valve 56 of Hanser et al US Patent 4,746,133 is actually part of the hydraulic circuit, not a stop valve blocking flow to the circuit).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Eric Culbreth whose telephone number is 571/272-6668. The examiner can normally be reached on Monday-Thursday, 9:00-6:30.
